Tech Skills

- Python
- Django
- Selenium Testing
- MySQL
- JavaScript
- Html – CSS
- Node.js
- Git Version Controlling
- Wordpress
- Excel

Summary

I am a self-taught developer with intermediate skills in backend development using Python. I have experience in building applications and am knowledgeable in database management (SQL), REST APIs, data modeling, web design with Django, and web scraping. Additionally, I possess a foundational understanding of machine learning. On the frontend, I am skilled in HTML, CSS, JavaScript, and NodeJS. I am committed to making valuable contributions to teams by utilizing my analytical, technical, and problem-solving abilities.

Experience

Although I do not have formal work experience in software development yet, I bring over 15 years of professional experience in the financial sector as a Public Accountant. My career has included roles from Analyst to Department Head in multinational companies such as KPMG, Unilever, and GL Events, where I led teams and managed complex projects. I am now making a transition into software engineering, with the goal of merging my strong analytical skills with technical knowledge to thrive in this new area.

Accounting Manager - 2022 to 2024

GL Events, Chile

- Responsible for reporting financial statements to the head office in France, preparing cash flow, budget, monthly KPIs, and turnover (sales) by products.
